

## SOP of the process followed for Incubation Support by CIIE

Centre for Innovation Incubation & Entrepreneurship (CIIE) extends incubation support to all innovative startup ideas. Under incubation support, various services & facilities are provided to entrepreneurs as mentioned in the incubation policy of the University.

Following procedure is followed for offering incubation support:

1. Information about the incubation support and policy gets shared frequently.
2. Invite application for incubation support.
3. Application is presented to Idea Assessment body where experts of different fields are invited to assess the startup idea.
4. If further refinement of idea is required, then Idea Assessment body provides suggestions to applicant/s and asks for resubmission of idea after working on the suggestions.
5. If the Idea Assessment body is satisfied with the startup idea, then based on the recommendation incubation support is extended to applicant for six months.
6. CIIE monitors the progress of the incubated startup idea and provide necessary guidance & support as per incubation policy.
7. The incubation support gets extended for another six months based on the progress of the incubated startup idea.
8. Incubated startups are introduced to AIs & VCs for funding support.
9. Information about the startups gets included in the annual report of CIIE.
